## Leatherlike Notebook

These rounded spine notebooks are covered using Cordenon's distinctive 'leatherlike' paper, making them a perfect cruelty free and environmentally friendly alternative. Available in A5 and A6, each book contains 320 pages, and features hand marbled, tweed textured end sheets.

## Customisations

- Lined or gridded pages
- Perforations
- Custom end sheets
- Deboss and foiling on cover or spine

## Stab Bind Notepad

This stylish and affordable 100 page notepad is ideal for avid note-takers. The Japanese stab bind technique is traditionally glue free, instead making use of stitched patterns to secure the spine. The cover paper, 'Plike' is an FSC approved, plastic-like paper which allows stray water droplets or pieces of dirt to be wiped away without affecting the integrity of the book.

## Custom Printed Book Textile

These hardcover notebooks, available in A6 and A5, are produced in limited editions using screenprinted designs and motifs from the work of local artists. Each book is accompanied by an editioned, screenprinted postcard, and a description of the artist's work. Pictured here is an image from our very own Madeleine Dymond's "Radio Gain", a short story soon to be produced in a limited edition of its own.
